Details

Description

This Horizon Europe call is aimed at ensuring strong European land, air and sea external borders. This includes the development of strong capabilities for checks at external borders; being capable to carry out systematic border checks, including identity, health and security checks as necessary, while facilitating the travel of bona fide

travellers and respecting rights and possible vulnerabilities of individuals.

A UK company with expertise in IT and cyber-security, has formed a consortium to apply for this bid that includes a Swedish university, a Belgian airport council and a Spanish airline institute (among others) and is seeking a final participant with experience in leading to head the application and lead the final project as coordinator.

The company or institute should have an interest and experience in contributing to the project, which aims to facilitate the processing of travellers and operational stakeholders at airports, seaports or land borders with a significant reduction in human contact or check points.

The deadline for EOIs in this profiles is 2 November 2021

The deadline for the call is 23 November 2021.

The participating partner should be eligible to be part of the call, to participate via NDA and research cooperation agreement.

Advantages and innovations

NDA required in order to participate in the Horizon Europe application.

Technical Specification or Expertise Sought

Experience in aviation/security and in coordinating EU submissions.
